

Digital Arts

By Eloisa P. Sengá

**Bachelor of Science in Information Technology with
specialization in Multimedia Arts and Animation**

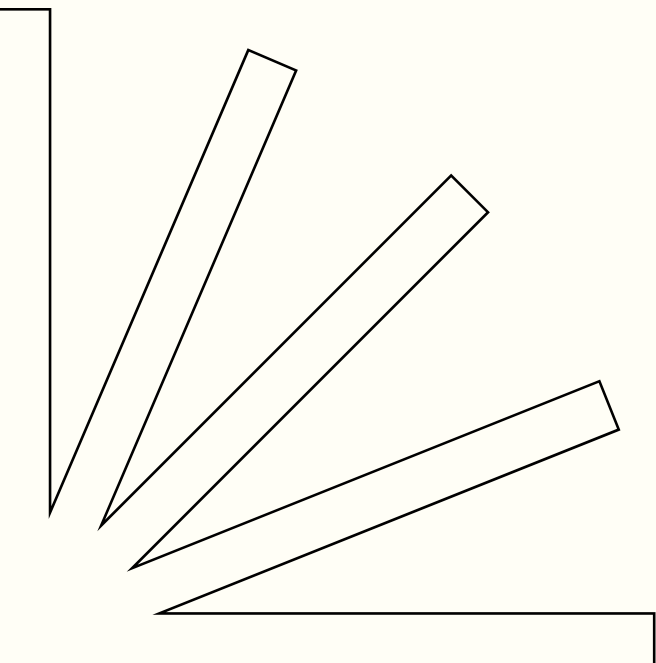

I am Eloisa P. Senga, and my portfolio is a representation of all I've learned and accomplished as an artist and developer. In this section are my digital arts which I made for a project and personal work. These works serves as my building block in being creative and practice my skills in human anatomy, dynamic poses, perspective, and etc.

I am still learning and will continue to show new sides of me. Have fun in checking my web designs, I think you'll like what you see!
